Over 2 years of experience as a Software Developer. I worked in Backend development at Farmafe, where I helped double the number of clients using our services. I continuously train and upskill to keep growing as a developer.

PROFESSIONAL EXPERIENCE

Farmafe

BackEnd Engineer

Buenos Aires, Argentina

December 2023 – Present

- I built multiple APIs to automate prescription lookup and validation via WhatsApp messaging.
- I developed a finance management platform for pharmaceutical chains, successfully increasing the number of subscribed clients by 30%.
- I managed two collections of SQL databases, handling their structure, maintenance, and optimization.
- I provided solutions to make tasks easier for my colleagues by creating custom scripts. For example, a program to calculate price increases and automatically print the corresponding new receipt.
- I coordinated and led the frontend team, communicating our planned backend architecture and upcoming features so they could effectively prepare and develop their corresponding tasks.

Freelance

DevTools Developer

Buenos Aires, Argentina

July 2025 – December 2025

- I designed multiple programs that automate data extraction from various websites, then process the information and present it in XLS format for further analysis.
- I streamlined repetitive tasks by creating Telegram bots that notify users of specific changes, improving the workflow.

EDUCATION

University of Palermo

Bachelor's degree in Cybersecurity

Buenos Aires, Argentina

January 2025 - Present

Bootcamp Henry

FullStack Development

Buenos Aires, Argentina

April 2023- September 2023

Coderhouse
